VASILII LUPASCO

PROJECT MANAGER - AUTOMATION QA LEAD TECHNICAL BACKGROUND IN JAVASCRIPT

PROFESSIONAL SUMMARY

Project-management oriented professional with a strong technical foundation in JavaScript and hands-on experience leading QA automation, coordinating delivery, and supporting product quality across web platforms. Combines structured communication, practical testing expertise, and a clear understanding of modern software workflows to keep releases aligned with business goals.

Selected value

- Led QA automation and delivery coordination for SmileIn and Weplib projects.
- Built and improved end-to-end test structure with Robot Framework, Selenium, Playwright, and Gherkin-based scenarios.
- Supported CI/CD quality visibility through GitLab pipelines, reporting, nightly executions, and structured defect tracking.

PROFESSIONAL EXPERIENCE

Automation QA Lead

BEND Technologies

SmileIn & Weplib Projects | Chisinau, Moldova | 2021 - Present

- Lead QA automation initiatives and coordinate quality activities across SmileIn and Weplib product areas.
- Plan regression scope, align release readiness, and work closely with developers, product teams, and DevOps to resolve issues efficiently.
- Drive automation strategy for web applications using Robot Framework, Selenium, Playwright, and Gherkin-based test design.
- Contribute to CI/CD integration, test reporting, nightly runs, and continuous quality improvements.
- Support documentation, structure refactoring, and process alignment for scalable E2E test coverage.

Previous roles and education continue on page 2.

TOOLS

- Robot Framework
- Selenium
- Playwright
- JMeter
- Jira
- Xray
- GitLab CI/CD

KEY SKILLS

- Agile / Scrum
- Release coordination
- Stakeholder communication
- Regression strategy
- Automation leadership
- Technical delivery

PREVIOUS EXPERIENCE

Software Developer / Technical Coordinator

Accendo Soft LTD

Chisinau, Moldova | 2017 - 2021

- Developed and supported web applications for e-commerce, logistics, and enterprise workflows using Java, JavaScript, TypeScript, HTML/CSS, REST, and SQL.
- Coordinated work items, estimated delivery effort, tracked progress, and helped keep project timelines under control.
- Worked across frontend and backend teams to maintain product quality and deliver stable releases.
- Contributed to projects such as OnSport, Guarantee Management System (GMS), and eGradinita.md.

Officer

Ministry of Internal Affairs

Chisinau, Moldova | 2012 - 2017

- Maintained public safety operations, handled reporting responsibilities, and supported coordinated field activities.
- Worked in high-responsibility environments requiring discipline, quick decision-making, and clear communication.
- Managed documentation, case-related procedures, and collaboration with other services when needed.

SELECTED PROJECTS

- SmileIn & Weblib - QA automation leadership, delivery support, documentation, CI/CD quality visibility, and cross-team alignment.
- OnSport - Fantasy and predictor games delivered for major sports and media customers including ESPN, UEFA, and Telegraph.
- Guarantee Management System - Enterprise platform for guarantee request, examination, issuance, and monitoring workflows.
- eGradinita.md - Education-focused web application supporting parent registration and operator approval workflows.
